

Neutronics Society

(Department of Physics and Electronics, Rajdhani
College, University of Delhi)

organizing

**Dr. Sanjay Malik Memorial lecture on
19th Feb 2019**

Speaker: Professor, Hyyong Suk
Department of Physics and Photon Science,
Director, Advanced Photonics Research Institute
Gwangju Institute of Science and Technology
South Korea

Date: Tuesday, 19 Feb 2019
Time: 11:00 AM
Venue: Rajdhani College Auditorium

All are cordially invited to attend the lecture

Dr. Rajesh Giri Dr. AP Singh Convener, all members, and
Principal Teacher-in-charge Students team of Neutronics Society

Brief journey of Dr. Sanjay Malik:

Dr. Sanjay Malik was an Associate Professor in the department of Physics and Electronics, Rajdhani College, University of Delhi. Unfortunately, he left us on 17 Feb 2015, while working in college; he was the teacher-in-charge of the department that time. Dr. Malik was a very learned and humble in nature, he joined this department in the year 1993 and since then he was serving the college as a very active and dynamic faculty member; he has worked in several committees, which were formed for the corporate life of the institute. The beauty of his personality was that he worked silently without any reward. While taking big responsibilities of the college work, he maintained always a very cordial relationship with all members of teaching community, especially he was very popular in the non-teaching staff due to his helping hand to all. He is also known for his subtle humour. He has been such a nice human being to come forward immediately for help to the people; to provide helping hand to the needy and to support for the noble cause of the society. Indeed, it is a great loss to our college and University; he left us at an early age. It is certainly difficult to fill this gap. In his memory, department of Physics and Electronics initiated a memorial lecture so that we can pay true homage to him by extending his ambitions of development and improvement of science in the society.
